

Injecting Lidocaine with Epinephrine shouldn't be a PAIN

NEW and AVAILABLE from QuVa Pharma:

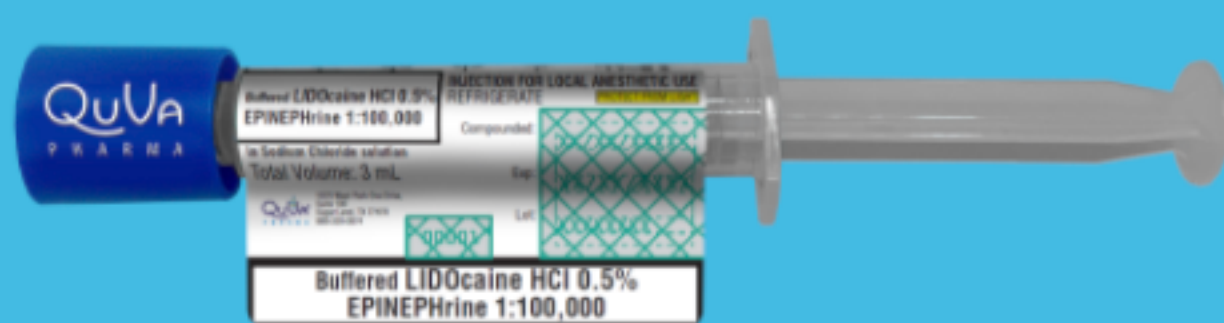

Buffered Lidocaine 0.5% and Epinephrine 30 mcg
(1:100,000, 10 mcg/ml)

Be Ready For Your Next Dermatologic Surgery!

- Reduces pain at injection site¹.
- Patented process that:
 - Creates a more physiologic pH level.
 - Stabilizes the Epinephrine in a buffered state for 60 days.
- Convenient, pre-filled, ready-to-administer syringes so there is no need to draw up medications from vials that then need to be mixed. Simply affix your preferred needle to syringe.
- QuVa Pharma ships directly to all 50 states.

Ask your hospital pharmacy to order today or [click here](#) to email QuVa Pharma directly and we can follow up with your practice.
